OCTOBER 2026 · RELEVANT ENVIRONMENTAL TOPICS · reported 26 Oct

ALLEN COMPRESSOR PLANT — EIA ADDENDUM APPROVED

“Allen Compressor Plant Update” addendum approved on 21 October 2026 (Resolution 962/2026). The decision on the cold vent stack (“Stack Frío”) remains pending. SMP must submit a comparative analysis of flaring and cold venting to the competent authority for discussion.

NEUQUÉN SECTION — WATER PERMIT PENDING

The response to comments on the Water Risk Study and its submission to SSRH remain pending, in coordination with Serman.
Purpose: advance the water permit application for the Neuquén section.

Statistical indicators remain as supplied, through 30 September 2026.
